

# Experience the new Waterside website

The world is changing rapidly, with all types of information playing a very important role in its transformation. Since the 1990s, internet technology has been a major driver of that change. Information networks have gradually become a necessity for people the world over. Children, adults, students, employees and the elderly alike rely on the convenience brought about by network technology. We can easily locate information in the online world through internet searches for things such as weather conditions, clothing, food, housing, business and various types of transactions.

As the preferred serviced apartment address in Macau, The Waterside has always been committed to improving service quality to provide customers with a superior experience, including by understanding the importance of the internet's widespread use in the property market and the business opportunities affected by it.

The online world is limited by neither time nor geography, and offers

real-time information. Queries and searches for various types of property information on social media platforms such as Facebook, WhatsApp and WeChat are now commonplace. Since November 2019, The Waterside's new official website has been online, updated with the latest information, keep users abreast of the latest developments related to the property. Not only can users view the latest leasing information on the new site, but they can also check out the latest news on The Waterside in regularly published articles, photos and videos – of newly added, high-end furniture and appliances, upgraded unit design and decoration, and the like.

In addition, in order to provide users with the fastest and most convenient communications – alongside a leasing hotline – The Waterside's newly launched website is directly connected to social media platforms including Facebook, Instagram, WhatsApp and LinkedIn. Users can choose the most convenient way to make appointments or contact us directly through those platforms.
